SUMITOMO LAUNCHES iOS Custom Equation Solver App

Chesapeake, VA – Sumitomo Machinery Corporation of America announces a new App called *PT Equate*, a custom equation solver. The new equation solver mobile app, available exclusively for Apple iOS, offers users the capability to create their own equations with customizable variables and a visual editor to represent the equation and its components through sketches, drawings, photos or diagrams.

PT Equate is preloaded with equations commonly used in the Power Transmission industry, such as Torque to Electric Power, Cyclo Overhung Load, Rotational to Linear Velocity and Torque to Accelerate Inertia. Users can create customer equations and corresponding visual aids through the equation builder functionality of the app.

To acquire this App go to the Apple Store .

For more information about Sumitomo Drive Technologies and products, contact: 1-757-485-3355 or their website.

PRAB ADDS NEW HIRES!

TO MEET GROWING INDUSTRY DEMAND!

Clark Wright, Application Eng.

Kalamazoo, MI – PRAB, Inc. continues its corporate growth into 2014 with the addition of *Application Engineer Clark Wright*. The company designs and manufactures equipment for chip handling, fluid filtration, fluid recycling, and scrap handling systems for use in all metal processing industries. Mr. Wright is a graduate of Ferris State University with degrees in product design and mechanical engineering. Clark’s primary responsibility will be using his years of experience in AutoCAD to design optimum chip processing system layouts.

PRAB’s TECHNICAL SUPPORT IN CANADA EXPANDS!

Due to Growing Demand for Scrap Metal / Chip Processing Systems

Kalamazoo, MI – PRAB, Inc. a manufacturer of custom engineered scrap and chip processing systems, has experienced an increase in demand from Canadian machine shops, tiered suppliers, and metal-forming companies over the last 18 months. The company expects the growth to continue in 2014. To support new and existing equipment installations, PRAB hired **RGW Sales**; based in Hamilton, ON. **Robert Webb, President of RGW**, started the business in 2009 to help Canadian companies and OEM’s gain a competitive advantage through increased productivity and cost reduction. Webb brings over 30 years of experience in technical sales and services to PRAB customers. For more information on PRAB visit: www.prab.com To find a technical rep in Canada, click on “**FIND A REP**” or go to PRAB’s website.

MARTIN ENGINEERING *(Los Cabos, Mexico)*

SUPPORTS LOCAL FIRE DEPARTMENT & RED CROSS!

Neponset, IL. – Martin Engineering reports that organizers of the 8th Annual *Sabor a Cabo* (Flavors of Cabo) food and wine festival have announced that the 2013 event raised more than \$90,000 to benefit local institutions and charities such as the volunteer fire department and Red Cross in Los Cabos, Mexico, where emergency services must be provided on limited funding. Hosted by CANIRAC, the restaurant industry association of Los Cabos, the festival featured international food from 40 local restaurants, along with two dozen purveyors of fine wines and liquors. It attracted some 2,000 guests to an evening of culinary art and entertainment at the magnificent *Campestre San Jose del Cabo*, owned by *Grupo Questro*, which furnished the venue on its lush golf course designed by Hall of Fame golfer **Jack Nicklaus**.

Martin Engineering supports all of the regions which they have facilities in, beyond gainful employment. Their corporate philosophy is finding ways to make meaningful contributions to the local communities. The President of CANIRAC, **Carmen Carbajal** observed that *Sabor a Cabo* offers visitors and residents an opportunity to experience the very best in food and wine offered anywhere in all of Mexico! Martin Engineering supplies bulk material handling equipment around the world for a wide variety of applications, including mining, coal handling, biomass, cement, aggregates and other materials. Founded in 1944, headquartered in Neponset, IL. For more info: or call **309-852-2384**.
