ASGCO recently announced that it will be expanding and moving their headquarters to a newly purchased and soon to be built operations in Nazareth, Pennsylvania. The company, which operates at 301 W. Gordon St. in Allentown, Pennsylvania, will be moving to 730 Bangor Road in Nazareth, Pennsylvania in the fall of 2021. [Read Full Story](#)

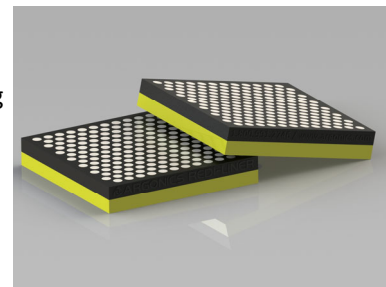

FLEXCO—Novitool® Aero® 325 for Live Roller Applications

FLEXCO recently announced the addition of the Novitool Aero 325 Splice Press to its family of endless splicing tools. The Aero 325 Splice Press and its narrow belt templates are ideal for live roller and transport belt applications, along with other thermoplastic PVC or PU belting. The main advantage of this press over traditional methods is that live roller belts can be spliced in 18-22 minutes, about a third of the time of current splicing tools. ARGONICS, INC.— Dual Durometer Ceramic Redi-Liner, Modular Lining System

Argonics has the perfect solution for you if you are tired of getting a short lifespan from your conveyor –related impact products and your transfer points see a lot of wear in their lifetime, creating numerous issues and hot spots. Argonics has created the Dual Durometer Ceramic Redi-Liner, fusing together the abrasion-resistant qualities of ceramic and urethane. Available in a 93/69 durometer combination, the top, outer facing layer features embedded ceramic in a harder urethane layer, while the underside, which faces the wall, absorbs the impact in the softer urethane. When tested, the dual durometer ceramic panels had 18% less rebound when compared to our single durometer ceramic panels. These 12x12 panels can be arranged into any wear pattern needed. The single-bolt attachment method allows for quick change-out with limited downtime. [Click Here for Details](#)

JIM MYERS & SONS, INC. –Makes donations to Novant Hospital, feeding health care workers!

Sam Myers and Sara Baker from JMS recently visited the Novant Hospital location to make a donation to a local fundraiser called CLT Strong. Feeding the Frontline, that provides meals to healthcare workers while supporting local restaurants. This program was started by Caroline Elliott, a local nurse and has received a great response to date topping \$100,00 in donations. JMS donated food from The New South Kitchen (one of Dave Myers' favorites) to healthcare workers at Novant Presbyterian Hospital. Over 100 employees received a meal from this donation. www.jmsequipment.com

MARTIN ENGINEERING—Conveyor Service Contracts, Reduce Downtime, Hazards & Costs

Improve efficiency, reduce risk and control operating costs

In a number of industries, operators are increasingly turning to outside contractors to take advantage of consistent maintenance schedules and expert service. Conducted by experienced and well-trained technicians from specialty companies, these contracts have been found to improve safety and control costs. Specialty contracting may be a better choice for service than internal resources, since the providers are fully trained on the newest equipment designs and safety procedures. In many cases, they may be able to secure replacement equipment more quickly during periods of unscheduled downtime due to their industrywide contacts. [Read Full Story](#)

ASGCO CONVEYOR SOLUTIONS— ABB Awards ASGCO With DODGE Authorized Distributor Status for Maryland and Virginia

ABB has recently announced that it has awarded ASGCO's Mid-Atlantic Division, as a fully authorized distributor of DODGE Bearings and Power Transmission Products for the states of Maryland and Virginia. This expands ASGCO's existing distribution territory of Pennsylvania, Delaware and Southeastern New York to give the end-user customers and original equipment manufacturers (OEM's) an independent distributor choice for their power transmission product needs.

ASGCO's Mid-Atlantic Division is now a fully authorized distributor of DODGE mechanical power transmission parts including mounted bearings, enclosed gear reducers, brakes, clutches, conveyor parts, belts, couplings, the industry standard, are designed to perform successfully in the most rugged environments and with the lowest total cost of ownership over the lifetime of the product.

"This partnership between ABB and ASGCO is a testament and commitment to excellent field and customer service that is unmatched in the industry today",

states Aaron Gibbs, President of ASGCO. www.asgco.com

SUPERIOR—Kimball Equipment Becomes Full Line Dealer for Superior Industries

Superior Industries is excited to announce an expanded product partnership with its long-term conveyor dealer, Kimball Equipment Company. A well respected dealer, which celebrates 75 years of operation next year, will now sell, service and support Superior's crushing, screening and washing equipment. "Kimball Equipment is a well-respected company and we're honored they'll represent our growing line of aggregate processing and handling equipment," says Jarrod Felton, president of Superior. "Together, we're both excited to serve customers with the region's best application advice, robust stocking plans and most efficient customer support."

Founded in 1946, the relationship between dealer, Kimball Equipment, and manufacturer, Superior Industries, started in 2004. Since then, the Salt Lake City-based dealer has sold almost 1,500 Superior conveyors and thousands of idlers, pulleys and conveyor accessories. The expanded partnership gives Kimball Equipment exclusive sales, service and support rights to Superior's full portfolio of crushing, screening, washing and conveying equipment in Utah, Nevada, Arizona and Southern Idaho. www.superior-ind.com
